

# PA BLACK POWDER

## Range Officers' Revision Paper

The 2008 revision paper for PA Black Powder Range Officers is now available for download from the PA website – follow the link to the Range Officer Revision on the PA website ([www.pistol.org.au](http://www.pistol.org.au)).

**This revision paper is to be completed by all PA Black Powder ROs, and forwarded for 'marking'**

The NRC is undertaking a series of RO revision papers, starting with our PA Black Powder Range Officers. This revision paper is to ensure that our Range Officers are using the current rules and interpretations, and to enable the NRC to maintain the database of Range Officers (address, club, etc.).

The RO revision papers will be available for download from the internet, as:

- Previous revision papers have been mailed out, but this is expensive – particularly when a number of our ROs have changed their address since their qualification (lots of returned mail), some have left the sport, etc.
- Everybody has either direct or indirect access to a printer and internet access (whether home, work, family, neighbour, club acquaintances, etc.)
