

PA Holster Accreditation

Application of PA Holster Accreditation

PA Holster accreditation **ONLY** applies to:

- Affiliated members of PA.
Due to liability and insurance issues, PA holster accreditation is only available to affiliated members of PA. If a holder of a PA Holster accreditation card ceases to be an affiliated member of PA, the holster accreditation becomes void
- The PA recognised events requiring holster draw – i.e. PA Service Pistol, International 1920 Match, and WA1500
PA holster accreditation has no application for other events.

PA Holster Accreditation remains in force for four years from the date of issue.

Renewal of PA Holster Accreditation Cards

Renewal of PA Holster accreditation is available to holders of a current PA* Holster Accreditation card, provided:

- They are a member affiliated to Pistol Australia, and
- Are continuing to compete without any safety problems in PA events requiring holster draw. It is up to the relevant Affiliate to determine how this is to be determined, but given the liability issues it is recommended that some form of 'recommendation' from the shooter's Club secretary or Club Captain be considered.

*This renewal only applies to holders of a PA Holster Accreditation; holders of any other organisation's holster card can not 'transfer' to a PA Holster Accreditation without assessment within the PA Holster Accreditation programme.

Any shooter whose Holster Accreditation is suspended or removed for a safety breach may only have the card renewed/returned after satisfactorily completing a reassessment as per the PA Holster Accreditation programme.
